Bonner David Galleries was

founded in 2002 by Christi Bonner Manuelito and Clark David Olson, who selected a collection of artists that brought together their love of figurative, landscape and realistic art, with a taste of well-known and gifted

contemporary artists. With a variety of artists, the gallery has most recently added **Hunt Slonem** to their roster of represented artists.

As the gallery continues its "Season of Homage," some of its most anticipated upcoming shows include new

works from **Max Hammond**, **Peregrine Heathcote** and **Dyana Hesson**. Apart from the regular show season, the gallery will be having an artist's demonstration by **Joseph Lorusso** on February 21 that benefits the Scottsdale Artists' School.
